SUCCEED CARNOT

Perrier Elected President of France

National Assembly—A Majority of 17—Of a Famous Family.

Paris, June 27.—Casimir Perrier was this afternoon elected president of the French republic in place of M. Carnot, the victim of the anarchists' hate. The election was held in the senate and chamber sitting as a national assembly in the great hall of the Chamber of Deputies, which has been the scene of so many historic events. The hall was filled with spectators, and many members of the cabinet were present. The election began.

M. Challemeil-Lacour presided by virtue of his position as president of the senate. At 1:10 p. m. he called the assembly to order and after a sympathetic reference to the late President Carnot, read the articles of the constitution relative to the election and then declared the national assembly open. No time was lost in proceeding to ballot. The voting was more close than had been anticipated. The assembly consists of about 853 members, of which the senators number 309. The first ballot gave M. Casimir Perrier 451 votes, a clear majority of only about 17.

M. CASIMIR PERRIER, elected president of the French republic by the congress of the two houses assembled at Versailles, according to the constitution, as a successor to Carnot, was premier of the cabinet before M. Dapuy to whom he himself succeeded as the president of the chamber. M. Casimir is the son and grandson of two famous statesmen of the same name. His grandfather, the first who entered public life, made himself famous by

his great oratorical and debating power. M. Casimir Perrier always belonged to the Moderate Liberal party and proved honest and patriotic. There is no doubt France possesses now another good and safe president. The new president is of middle age. He is a Free thinker but a staunch defender of liberty of conscience. He will no doubt be favorable to the clergy as long as they do not interfere in political or educational affairs of the nation.

Santo's Trial Day Set.

Lyons, June 27.—The trial of Cesario Santo, the anarchist assassin of President Carnot, is to take place on July 23.

"Down With the French."

San Francisco, June 27.—An Italian mass meeting called here last night in the Italian quarter for the purpose of expressing regret for the assassination of President Carnot nearly ended in a bloody riot. As soon as Chairman Joseph Coligario, one of the leading men of the Italian colony and looked upon as a liberal and broad minded man, ascended the platform and stated the purposes of the meeting, pandemonium reigned. Shouts and screams, "Down with the French" and "Italy forever," came from half a thousand throats. Coligario was pushed from the platform and had to flee for his life, which was only saved through the vigorous use of policemen's clubs. He was chased to the Commercial hotel and the mob attempted to enter there, but were beaten back. The extraordinary action of the crowd is thought to be due to a division of the Italian colony. One faction is composed of laborers and the other faction of merchants and capitalists. The first faction, which is said to be permeated by the teachings of the Mafia, caused the trouble.

For Shouting Anarchy.

Nimes, June 27.—Two men were arrested here today for shouting "viva la anarchie," and for praising Santo's murderous deed.

A COMPLETE TIE

Of the Illinois Central South Chicago Branch.

Operators, Switchmen and Yard Employees All Out—No Pullman Cars.

Chicago, June 27.—The suburban passengers on the Illinois Central, south Chicago branch, were the first to feel the effects of the tie up on that road today. Traffic is blocked and the company is compelled to transfer patrons from the branch. At Seventy-first street the south Chicago branch leaves the main line and runs southward through a number of suburban stations, through Chicago. A tower there controls the switches leading to the branch. Two operators stationed in the tower left their post last night and their places could not be supplied readily. They left the switches set for the main line, and the suburban trains on that line were run on regular schedules. Trains from south Chicago to Randolph street ran as far as the main line, but were not able to continue north. Through trains on the Illinois Central and roads using its tracks passed the Grand crossing and Pullman without interference. None carried Pullman cars. Few employees were gathered around the tracks and no demonstration was made. At Fordham yards, near One Hundredth street, the day shift of switchmen, switch tenders and yard employees left their work and joined the strikers. About 100 men are employed in the yards, and all went out, completely tying up the yard.

The Boycott Postponed.

Columbus, Ohio, June 27.—The American Railway union held a meeting during last night and decided not to move in the Pullman boycott until officially requested.

No Effect In Washington.

Washington, D. C., June 27.—The boycott against the Pullman company by the American Railway union has not reached this city. Trains with Pullman cars attached arriving and departing on schedule time and the officials of the several roads here do not believe there will be any trouble at this point.

Running as Usual.

Jersey City, N. J., June 27.—No attempt was made to extend the Pullman car strike at Jersey City. The Pullman cars are running as usual today on regular Pullman trains.

No Through Trains Running.

Denver, Col., June 27.—Owing to the Pullman boycott no through trains are running on the Santa Fe today. Five trains are held at Raton, N. M., and one at La Junta, Colorado. The officers of the company are determined not to move trains without Pullman cars.

Will Accept No Freight.

Chicago, June 27.—The Illinois Central has given notice it can accept no freight of any kind.

In a State of Uncertainty.

St. Louis, Mo., June 30.—The American Railway union contest is in a state of uncertainty here. The men concerned apparently do not know whether the boycott will be put into effect today, tomorrow, next week or at all. Every effort is being made to increase the strength of the order here. So far 500 accessions have been made.
